Why choose China Dehydrated garlic Products ?

China is major raw dehydrated garlic producers and major exporters of dehydrated garlic.

China accounts for about 85 per cent of the world's total output of dehydrated garlic and

only about 15 % of its consumption. North America and Europe dominate the global market for dehydrated garlic, with market shares of about 32 percent and 20 percent in 2017. The price of dehydrated garlic is strongly influenced by the price of fresh garlic.

The Dehydrated Garlic products was divide into two kinds according to fresh garlic raw material: Normal white garlic dehydrated Garlic products and Cangshan Garlic dehydrated Garlic products .

Cangshan garlic is also called (four or six cloves garlic), its mainly planted in Cangshan County ,Linyi City ,Shandong Province,China .The Cangshan garlic skin is white, and each head of garlic contains about 4-6 garlic cloves. The cloves are neat and uniform, and the size is large, convenient for eating and processing. Cangshan garlic is sticky, spicy, nutritious, often eat can reduce the incidence of a variety of cancer.

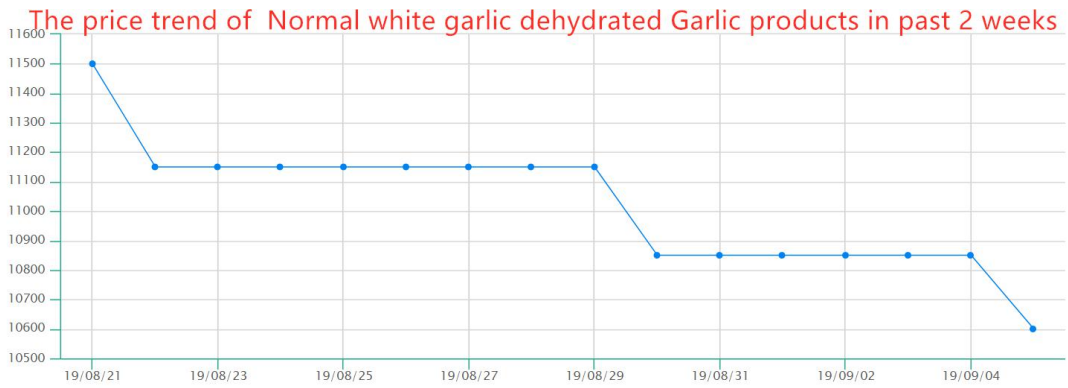

Cangshan Garlic
